CEMEX LATAM HOLDINGS REPORTS SECOND-QUARTER 2013 RESULTS

- CLH reports an operating EBITDA year-over-year growth of 16% during the second quarter with an operating EBITDA margin expansion of 2.8 percentage points, reaching a record level of 38.5%

BOGOTÁ, COLOMBIA, JULY 24, 2013 – CEMEX Latam Holdings, S.A. ("CLH") (BVC: CLH), announced today that consolidated net sales reached US$431 million during the second quarter of 2013, an increase of 8% versus the pro forma second quarter of 2012. Operating EBITDA increased by 16% during the quarter to US$166 million versus the pro forma second quarter in 2012. Adjusting for the additional business days and foreign exchange fluctuations during the quarter, net sales and operating EBITDA increased by 9% and 16%, respectively, compared with the pro forma second quarter of 2012.

CLH's Financial and Operational Highlights

- The increase in consolidated net sales was mainly due to higher volumes, driven by improved construction activity, and higher prices.
- Operating EBITDA, adjusting for the additional business days and foreign exchange fluctuations during the quarter, increased by 16% versus the pro forma second quarter in 2012.
- Free cash flow after maintenance capital expenditures during the quarter reached US$90 million.

Carlos Jacks, CEO of CLH, said, "We are very pleased with the favorable results in the second quarter, as evidenced by the record level of operating EBITDA margin that reached 38.5%. We are also very encouraged with the results seen so far in connection with our new strategy based on commercial solutions that are allowing us to capture incremental value. Our solid operating performance has resulted in a strong free cash flow generation that, going forward, should contribute to strengthen our business strategy, finance our expansion projects and reduce our indebtedness."

Consolidated Corporate Results

During the second quarter of 2013, controlling interest net income was a gain of US$115 million.

Net debt was US$1.4 billion at the end of the quarter.

Geographical Markets Second Quarter 2013 Highlights

###

This press release contains forward-looking statements and information that are necessarily subject to risks, uncertainties and assumptions. Many factors could cause the actual results, performance or achievements of CLH to be materially different from those expressed or implied in this release, including, among others, changes in general economic, political, governmental and business conditions globally and in the countries in which CLH does business, changes in interest rates, changes in inflation rates, changes in exchange rates, the level of construction generally, changes in cement demand and prices, changes in raw material and energy prices, changes in business strategy, changes derived from events affecting CEMEX, S.A.B de C.V. and subsidiaries ("CEMEX") and various other factors. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein. CLH assumes no obligation to update or correct the information contained in this press release.

For convenience of the reader the 2012 pro forma consolidated financial information was adjusted to reflect the additional results of the operating subsidiaries for three and six months periods ended June 30, 2012 and reflect the 5% corporate charges and royalties agreement entered into by CLH with CEMEX. Operating EBITDA is defined as operating earnings before other expenses, net plus depreciation and operating amortization. Free Cash Flow is defined as operating EBITDA minus net interest expense, maintenance and expansion capital expenditures, change in working capital, taxes paid, and other cash items (net other expenses less proceeds from the disposal of obsolete and/or substantially depleted operating fixed assets that are no longer in operation). All of the above items are presented on a consolidated basis in 2012 based on the financial statements of CLH's subsidiaries prepared under International Financial Reporting Standards as issued by the International Accounting Standards Board. Operating EBITDA and Free Cash Flow (as defined above) are presented herein because CLH believes that they are widely accepted as financial indicators of CLH's ability to internally fund capital expenditures and service or incur debt. Operating EBITDA and Free Cash Flow should not be considered as indicators of CLH's financial performance, as alternatives to cash flow, as measures of liquidity or as being comparable to other similarly titled measures of other companies.

Consolidated net sales in the second quarter of 2013 increased to US$431 million, representing an 8% growth when compared to the pro forma second quarter of 2012. Adjusting for additional working days and foreign exchange fluctuations during the second quarter, net sales increased by 9% compared to the same period last year. The increase in net sales is mainly explained by increased construction activity resulting in higher volumes during the second quarter.

Cost of sales as a percentage of net sales decreased by 2.5pp during the second quarter of 2013 compared with the same period last year, from 52.2% to 49.7%. This resulted from a decline in fuel costs driven by higher alternative fuel substitution, as well as the effect of higher prices on net sales.

Operating expenses as a percentage of net sales increased by 1.3pp during the second quarter from 15.9% to 17.2%, compared with the same period a year ago, on a pro forma basis. Excluding depreciation and amortization, operating expenses, also as a percentage of net sales, remained stable during the quarter, and declined by 1.1pp during the first six months of 2013, as a result of lower distribution and corporate expenses, as well as the effect of higher prices on net sales.

Operating EBITDA increased by 16% to US$166 million during the second quarter of 2013 compared to the pro forma second quarter of 2012. Operating EBITDA adjusting for additional working days and foreign exchange fluctuation during the quarter also increased by 16% on a year-over-year basis. This improvement was driven by a positive contribution from all of our markets.

Operating EBITDA margin during the quarter increased 2.8pp to 38.5% from 35.7% compared to the second quarter of 2012, on a pro forma basis, mainly as a result of our continuous improvement in the efficiency of our operations due to a higher alternative fuels utilization, lower distribution expenses, and higher prices and volumes.

Controlling interest net income during the second quarter of 2013 was US$115 million.

Total debt at the end of the second quarter of 2013 was US$1,479 million.

Price (USD)	4%	1%	6%	3%	(1%)	(1%)
Price (local currency)	8%	6%	10%	9%	2%	4%

In Colombia, during the second quarter our domestic gray cement and aggregates volumes increased by 3%, while our ready-mix volumes increased by 8% compared to the same period of last year. For the first six months of the year, our cement and aggregates volumes declined by 6% and by 1%, respectively, while our ready-mix volumes increased by 5%.

During the quarter, the residential sector was an important driver of demand, mainly supported by the 100-thousand free-home program. The industrial-and-commercial sector continued its favorable performance primarily in terms of warehouse and office buildings construction on the back of the trade agreements that Colombia has recently signed.

Price (USD)	0%	1%	7%	9%	11%	9%
Price (local currency)	0%	1%	7%	9%	11%	9%

In Panama, our domestic cement and aggregates volumes in the second quarter increased by 6% and 10%, respectively, while our ready-mix volumes declined by 1%, compared to the same period a year ago. For the first six months of the year our cement and aggregates volumes increased by 3% and by 2% respectively while our ready-mix volumes declined by 9% on a year-over-year basis. This decline in our ready-mix volumes is explained by the conclusion of a large hydroelectric project.

Activity on the infrastructure sector during the quarter was driven by the Canal expansion project as well as other ongoing projects like *Cinta Costera 3* and the *Corredor Norte* highway. The residential sector in Panama continued its favorable trend, mainly driven by middle-to-high level housing construction.

Price (local currency)	13%	12%	14%	16%	(4%)	2%

In our operations in Costa Rica, our cement volumes in the quarter increased by 11%, while our ready-mix and aggregates volumes declined by 6% and 7% respectively, on a year-over-year basis. For the first half of this year, our cement volumes increased by 1%, while our ready-mix and aggregates volumes declined by 12% and 8%, respectively, compared to the same period a year ago. The decline in our ready-mix and aggregates volumes is explained by the conclusion of several large commercial projects.

Construction activity during the quarter was driven by the infrastructure sector with several ongoing hydroelectric and road projects, as well as by a favorable trend in the housing sector. In terms of the industrial-and-commercial sector, during the quarter some projects related to tourism started construction works.

CLH Annual General Shareholders' Meeting held on May 15, 2013

The General Shareholders' Meeting of CEMEX LATAM HOLDINGS, S.A., in accordance with the Call to the 2013 meeting published on April 12, 2013, was held, on first call, on May 15, 2013 with the attendance of a total of 486,717,885 shares (all of them present, none represented), reaching a quorum of 84.1667% of the share capital (present).

The General Shareholders' Meeting approved, by absolute majority, all of the proposed resolutions on the agenda. The full text of the resolutions proposed has been available in our website (www.cemexlatam.com) since April 12, 2013.

Tax Matters in Colombia

CEMEX Colombia, S.A. has reached a settlement with the Colombian Tax Authority (Dirección de Impuestos) regarding its 2007 and 2008 year-end tax return The amount paid in connection with the settlement corresponding to the 2007 and 2008 was 47,111,330,000 Colombian pesos (about U.S.$24.4 million based on an exchange rate of 1,929 COP per USD). We are currently waiting for the resolution regarding the settlement to be fully signed.

CLH provides building solutions for low-income housing project in Colombia

On May 20, in Cúcuta, Colombia, former Housing Minister Germán Vargas Lleras and CEMEX Latam Holdings (CLH) presented 71 low-income housing units. These are the first of 1,500 homes the company will build in the city during the following ten months. Present at the event was CLH CEO Carlos Jacks alongside local authorities and government representatives.

This is the initial phase of a 100,000 unit low-income housing initiative from the government of President Juan Manuel Santos, who seeks to generate employment and reduce poverty levels. During this phase around 570 people have been benefitted by the program.

To reduce construction costs and ensure that the homes were completed on time and with the highest quality, CLH used an industrialized building system using concrete walls and plaques with metal frameworks. By using this modern system the company was able to guarantee efficiency in worksite controls, precise dimensions of all homes, and perfect finishes. During the event Minister Vargas Lleras highlighted CLH's speed, efficiency, and quality in facing the challenge to participate in the 100,000 homes project.

Methodology for translation and presentation of results

Under IFRS, CEMEX Latam Holdings, S.A. ("CLH") reports its consolidated results in its functional currency, which is the US Dollar, by translating the financial statements of foreign subsidiaries using the corresponding exchange rate at the reporting date for the balance sheet and the corresponding exchange rates at the end of each month for the income statement.

For the reader's convenience, Colombian peso amounts for the consolidated entity are calculated by converting the US dollar amounts using the closing COP/US$ exchange rate at the reporting date for balance sheet purposes, and the average COP/US$ exchange rate for the corresponding period for income statement purposes. The exchange rates used to convert: (i) the balance sheet as of June 30, 2013 was $1,929.00 Colombian pesos per US dollar, and (ii) the consolidated results for the second quarter of 2013 and pro forma combined result for the second quarter of 2012 were $1,883.09 and $1,791.21 Colombian pesos per US dollar, respectively.

Per-country/region selected financial information of the income statement is presented before corporate charges and royalties which are included under "other and intercompany eliminations."

Consolidated and combined financial information

When reference is made to consolidated financial information means the financial information of CLH together with its consolidated subsidiaries. When reference is made to combined financial information means the financial information of CLH's subsidiaries on a combined basis.

Presentation of financial and operating information

Individual information is provided for Colombia, Panama and Costa Rica.

Countries in Rest of CLH include Brazil, Guatemala, El Salvador and Nicaragua.

Pro forma financial information included in the report

CLH was incorporated during the second quarter of 2012 for purposes of the initial equity offering concluded on November 15, 2012. For accounting purposes, the group reorganization pursuant to which CLH acquired its consolidated subsidiaries was effective July 1, 2012. As a result, CLH has no historical consolidated financial information for the second quarter of 2012.

For convenience of the reader, and in order to present comprehensive comparative operating information for the six and three month periods ended June 30, 2013, CLH prepared pro forma selected consolidated income statement information for the six and three-month periods ended June 30, 2012, intended in all cases and to the extent possible, to present the operating performance of CLH on a like-to-like basis.

Pro forma year-to-date and second quarter 2012: CLH selected consolidated income statement information for the six and three-month period ended June 30, 2012, was determined by reflecting the original results of the operating subsidiaries for the six and three-month period ended June 30, 2012. In addition, in connection with the 5% corporate charges and royalties agreement entered into by CLH with CEMEX and that was executed during the last quarter of 2012 with retroactive effects for full year 2012, the consolidated pro forma condensed income statement information of CLH for the six and three-month period ended June 30, 2012 was adjusted to reflect the 5% consolidated corporate charges and royalties.

CLH will continue to present pro forma amounts during 2013 in connection with the quarterly comparative information of 2012, in order to reflect the effect of the 5% royalty agreement allocated to each quarter.

Amounts provided in units of local currency per US dollar.

Pro forma Earnings per Share ("Pro forma EPS")

CLH was incorporated in April 2012 and its relevant share capital was contributed by CEMEX España on July 31, 2012 and by third-party investors on November 6, 2012. Therefore, there are no regular quarterly periods for 2012 in order to determine the average number of shares outstanding as indicated under IFRS for purposes of presenting Earnings per Share amounts.

Considering this limitation CLH does not includes Pro Forma EPS for the pro forma six and three-month periods ended June 30, 2012.

Volumes and prices

Considering the limitations of historical information described above, CLH changes in volumes and prices, presented for convenience of the reader, consider volumes and average prices on a pro forma basis for the six and three-month periods ended June 30, 2012.

Definition of terms

Free cash flow equals operating EBITDA minus net interest expense, maintenance and strategic capital expenditures, change in working capital, taxes paid, and other cash items (net other expenses less proceeds from the disposal of obsolete and/or substantially depleted operating fixed assets that are no longer in operation).

Maintenance capital expenditures investments incurred for the purpose of ensuring the company's operational continuity. These include capital expenditures on projects required to replace obsolete assets or maintain current operational levels, and mandatory capital expenditures, which are projects required to comply with governmental regulations or company policies.

Net debt equals total debt minus cash and cash equivalents.

Operating EBITDA equals operating earnings before other expenses, net, plus depreciation and operating amortization.

pp equals percentage points.

Strategic capital expenditures investments incurred with the purpose of increasing the company's profitability. These include capital expenditures on projects designed to increase profitability by expanding capacity, and margin improvement capital expenditures, which are projects designed to increase profitability by reducing costs.

Working capital equals operating accounts receivable (including other current assets received as payment in kind) plus historical inventories minus operating payables.

2Q13 achievements

- Continued our efforts to increase the use of alternative fuels
  - On a consolidated basis, alternative fuels consumption reached 26% during 2Q13
  - In our operations in Colombia, the use of alternative fuels increased to 43% in 2Q13
- Improvements in our fleet and route optimization during 2012 have resulted in lower distribution expenses in our main markets
- In Colombia, we are participating as contractor in several housing projects
  - About 5,400 homes under the 100-thousand government-sponsored free-home program
  - 372 units with local governments in Tolima and Risaralda
  - Recently signed a contract for an additional 1,000 homes
- In Colombia, as of the second quarter, 66 Construramas had been opened and 141 had signed up to join the network
- New 500K ton cement grinding capacity project in the Colombian Atlantic Coast on track to become operational during the fourth quarter of 2013
